The whole question of sexuality, gender, orientation, relationships formal, legal or otherwise has been thrown wide open and in public in the last few

years. It is difficult for all of us to find or find again a healthy stance on this so intimate and individual social realm. These talks are not meant to give answers to this question and others that may arise from it. They propose to create a safe and open setting to share concerns, confusions and problems within this enigmatic realm. We can explore what the Christian Community out of the sacramental realm can offer as positive input to these questions. All are welcome.

*All donations are gratefully received
as they enable the work of
The Christian Community to
exist in the world*
